

Viewing a patient's care plan history in HPOS

- You can view your patient's care plan history for the last 12 months in HPOS* with an Individual PRODA** account if you are a provider.
- It's recorded against their Medicare record.
- Delegates are unable to access this service on your behalf.

If your patient hasn't had a care plan created in the previous 12 months, a message will appear. It will say **Enhanced Primary Care plan items not previously paid**.
