

View patient care plan history in HPOS

- ✓ You can view your patient's care plan history for the last 12 months in Health Professional Online Services (HPOS).
- ✓ Once approved, delegates acting on behalf of a health professional can **View patient care plan history** via the HPOS menu.
- ✓ With an individual Provider Digital Access (PRODA) account if you are a health professional and/or a delegate.
- ✓ It's recorded against their Medicare record.

If your patient hasn't had a care plan created in the previous 12 months, a message will appear:
Enhanced Primary Care plan items not previously paid.
