

Forecast eligibility for MyMedicare Incentives for an Organisation site

You can forecast your eligibility in Health Professional Online Services (HPOS) to track whether the Incentive requirements have been met for each patient.

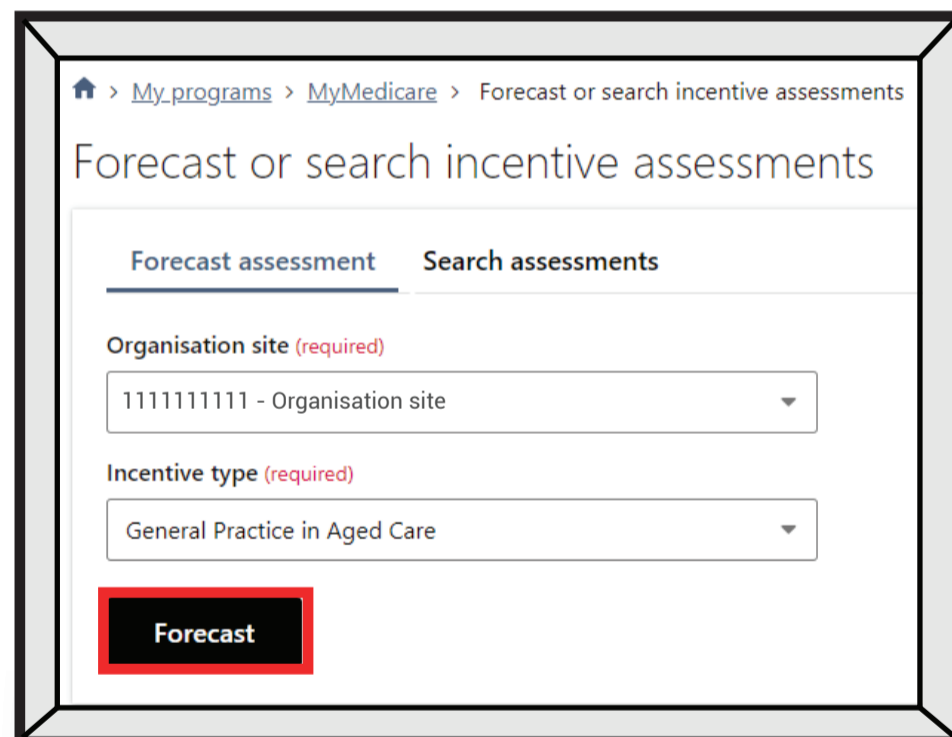

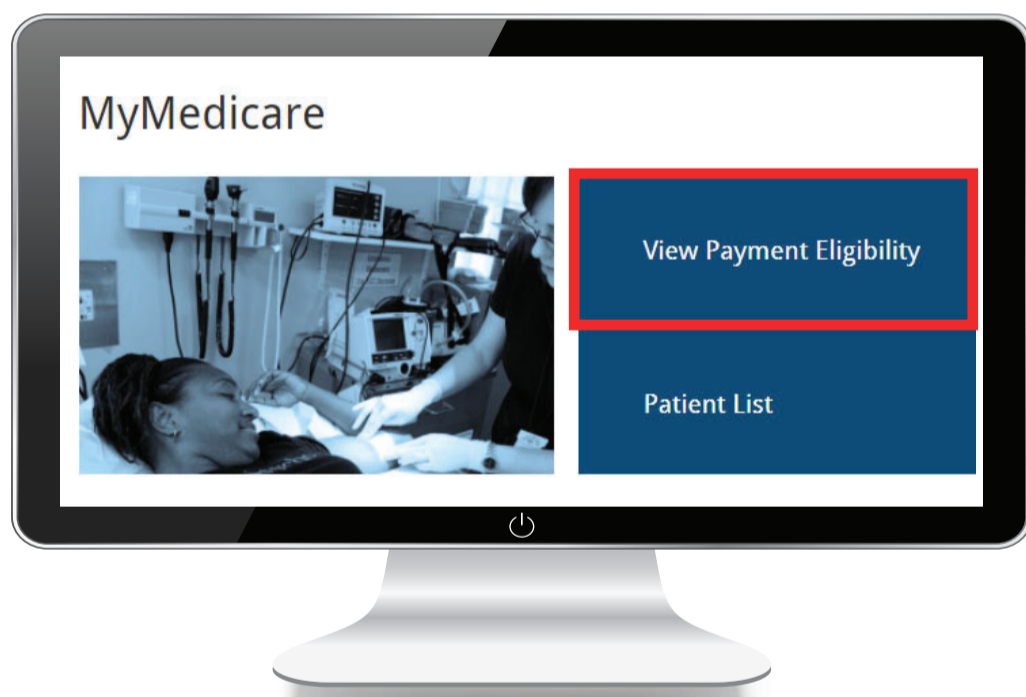

You don't need to call Medicare to access this information – you can access it in HPOS when it suits you.

Accessing the Forecast assessment tab

- Login to your **individual Provider Digital Access (PRODA)** account.
- Under **My linked services**, select **Go to service** on the Health Professional Online Services tile.
- Select the **Organisation** you are acting on behalf of in HPOS.
- Select **Continue**.
- The HPOS home page will display.

If you are a practice delegate for multiple MyMedicare-registered practices, there will be a drop-down list where you can select the relevant organisation site.

- Select the **My programs** tile.
- Select the **MyMedicare** tile.
- Select the **View Payment Eligibility** tile.
- Select the **Forecast assessment** tab and select your **Organisation site** in the drop-down list.
- Select the **Incentive** from the **Incentive type** drop-down list.
- Select the **Forecast** button.

A forecast can only be requested **once per day**.

An eligibility forecast is a **point-in-time assessment** based on available data at the time and is **subject to change** based on updated data. A forecast is not a confirmation of actual payment amounts.

Depending on the number of patients, the forecast may take up to one hour. Existing forecasts and, once completed, the requested forecast will be available via **Search assessments**.

For more guidance on accessing and interpreting your MyMedicare Incentive information, refer to the [MyMedicare – General Practice in Aged Care Incentive eLearning](#).
