

Forecast eligibility for MyMedicare Incentives as a Provider

You can forecast your eligibility in Health Professional Online Services (HPOS) to track whether the Incentive requirements have been met for each patient.

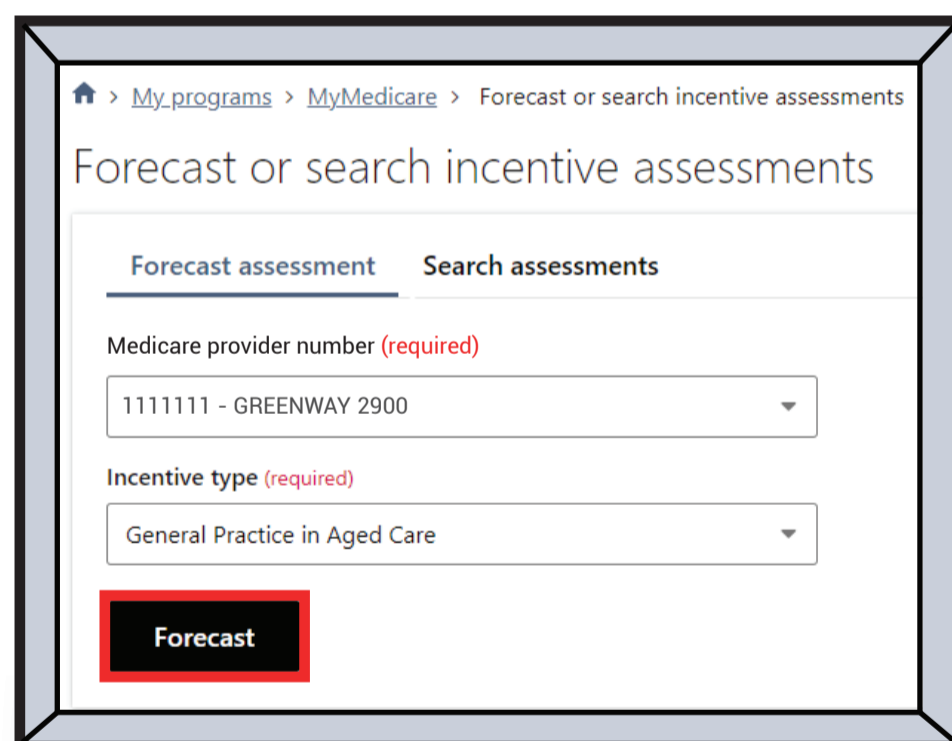

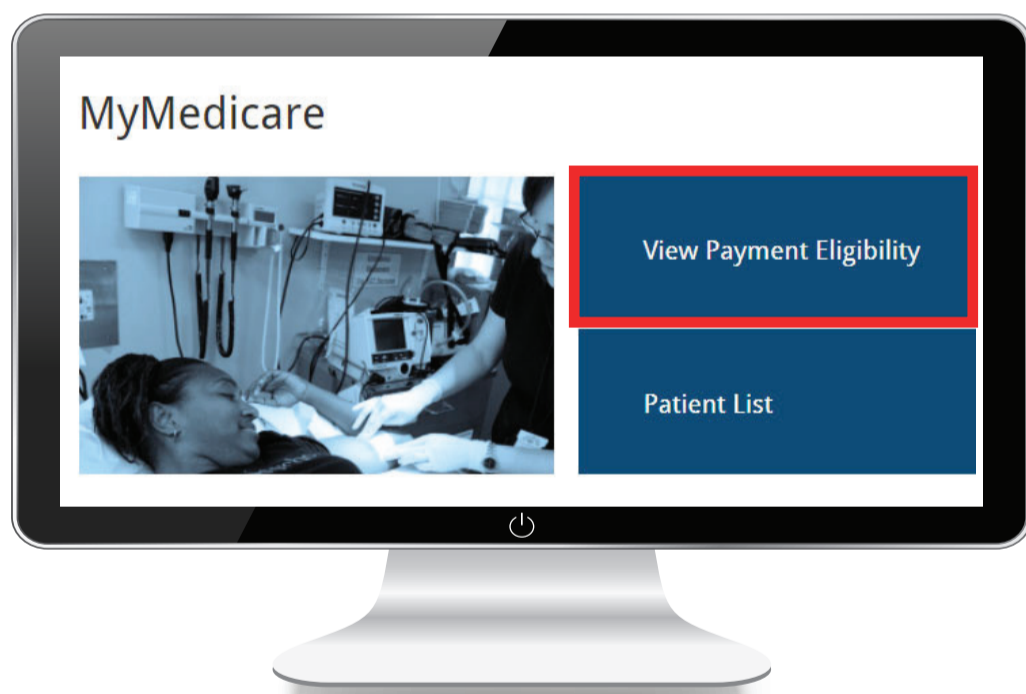

You don't need to call Medicare to access this information – you can access it in HPOS when it suits you.

Accessing the Forecast assessment tab

- Login to your **individual Provider Digital Access (PRODA)** account.
- Under **My linked services**, select **Go to service** on the Health Professional Online Services tile.
- Select your **Medicare provider number (MPN) and location**.
- Select **Continue**.
- The HPOS home page will display.

If you are linked to multiple MyMedicare-registered practices, there will be a drop-down list where you can select the MPN for the relevant location.

- Select the **My programs** tile.
- Select the **MyMedicare** tile.
- Select the **View Payment Eligibility** tile.
- Select the **Forecast assessment** tab and select your **Medicare provider number and location** in the drop-down list.
- Select the **Incentive** from the **Incentive type** drop-down list.
- Select the **Forecast** button.

A forecast can only be requested **once per day**.

An eligibility forecast is a **point-in-time assessment** based on available data at the time and is **subject to change** based on updated data. A forecast is not a confirmation of actual payment amounts.

Depending on the number of patients, the forecast may take up to one hour. Existing forecasts and, once completed, the requested forecast will be available via **Search assessments**.
